October 31, 2012

I. CEQA FINDINGS

- A. Find on the basis of the whole record that there is no substantial evidence that the proposed project will have a significant effect on the environment. In accordance with State CEQA Guidelines section 15074(b), find that the County of San Diego as the decision making body of the lead agency under the California Environmental Quality Act has considered the environmental effects of the project as shown in the Negative Declaration prepared by the lead agency, in addition to comments received during public review of the environmental document, before reaching its own independent judgment and analysis on whether and how to approve the project.
